# INTRODUCTION

## WHO WE ARE

SUBWEB Oil & Gas Services Limited was born out of the need to provide sustainable solutions and services for the oil and gas industry in Nigeria. Since 2013, we have been driven by integrity, humility and the desire to make a difference. It started by building relationships with globally reputable service providers to gain necessary technical support and equipment for selected service offerings.

We operate a 5-year strategy span where we articulate our objectives. Each span defines our strategy and how it is to be achieved. However, every phase maintains a major decision to plough back profits to ensure capacity development in assets while ensuring effective and efficient solutions are delivered in order to secure a leading position in the oil and gas industry.

Today, we have emerged as a dynamic service company offering quality specialized solutions to the industry. With a state of the art remotely operated vehicles (ROV), high technology tooling, a fleet of modern support vessels and very experienced pool of personnel, we continue to deliver high-quality brownfield development, subsea solutions, well completions and vessel chartering services safely.

We are guided by a strong culture and value system that prioritizes the pursuit of excellence in service delivery as we continue with an unending passion to exceed our clients' expectation.

**O**UR Vision  
To be a globally respected company offering innovative quality services safely to the oil & gas industry.

**O**ur Mission  
To be recognized as the preferred subsea and marine construction service provider, delivering exceptional results even in very challenging situations.

**O**ur Values  
In today's working environment, we have core values which we imbibe as guiding principles that define our personnel culture and mode of behavior.

## Our services

Our services cover most aspects of diving, marine and construction related requirements, both above and below water. With our ready to go equipment at our operations base in Port Harcourt, we offer the underlisted services Incorporated within the following Divisions:

- Project Management
- Offshore Vessel Inspection & Supplier
- ROV & Diving Services
- Marine Construction Services
- Inspection & Survey Services
- Welding & Fabrication Services
- Outsourcing & Manpower Services

Each of these divisions boasts an impressive team of specialized skills, resources and assets. Driving each of them is a passion for ensuring every client engagement is carried out in the spirit of innovation combined with experience that is the core ethos of SUBWEB OIL AND GAS SERVICE

# HISTORY OF PROJECT EXECUTED & COMPLETED

PROJECT	OTAKIKPO/ATL/WAV/1222	
CLIENT	EUROFLOW NIGERIA LIMITED	
LOCATION	OTAKIKPO, RIVERS STATE	
REGION	WEST AFRICA, NIGERIA.	
TYPE OF WORKSCOPE	Equipment and Personnel Support for 20" Pipeline Laying and Inspection Project/Stinger Checks	
START DATE	MAY 2024.	
END DATE	Ongoing.	PROJECT PICTURES
DETAIL	 	
RESPONSIBILITY	Supply Diving Equipment and Personnel as required for the campaign	

PROJECT	GSSL-NODES/TRANSPONDER-AKWA IBOM-001/2024	
CLIENT	GEO SEISMIC SURVEY LIMITED	
LOCATION	UTA-IWA IKOT- ABASI, AKWA IBOM	
REGION	WEST AFRICA, NIGERIA.	
TYPE OF WORKSCOPE	SEARCH AND RECOVERY OF NODES AND TRANSPONDERS	
START DATE	7TH MARCH 2024.	
END DATE	27TH MARCH 2024.	
		PROJECT PICTURES
DETAIL	 	 
RESPONSIBILITY	Pinpoint, Search location for nodes and transponders, recover to surface any found nodes and transponders	

PROJECT	FSO VIRINI PREM UNDER WATER REPAIR Campaign		
CLIENT	ORIENTAL ENERGY RESOURCES LIMITED		
LOCATION	EBOK FIELD		
REGION	WEST AFRICA, NIGERIA.		
TYPE OF WORKSCOPE	To performed (General Visual Inspections), CVIs (Close Visual Inspection), CP & UT measurement utilizing Divers in order to identify deterioration hull plate, and further failures or conditions that may lead to further failures (e.g., external corrosion).		
START DATE	FEB- 2022.		
END DATE	Ongoing.		PROJECT PICTURES
DETAIL	<p>Task Objectives.</p> <p>FSO VIRINI PREM UNDER WATER</p> <p>Hull Plate REPAIR Campaign.</p> <p>Welding of Replacement Plate</p> <p>Inside FSO Tank</p>		
RESPONSIBILITY	Supply Diving Equipment and Personnel as required for the campaign		

PROJECT	LEKKI DEEP SEA PORT FACILITY	
CLIENT	CHINA HARBOR ENGINEERING COMPANY NIGERIA LIMITED	
LOCATION	LEKKI LAGOS	
REGION	WEST AFRICA, NIGERIA.	
TYPE OF WORKSCOPE	Equipment and Personnel Support-Installation of Anodes and Underwater Welding & Burning	
START DATE	1st of July 2022	
END DATE	31st of August, 2022	PROJECT PICTURES
DETAIL		
RESPONSIBILITY	Supply Diving Equipment, Technical Support and Personnel as required	

PROJECT	GOOGLE CABLE LINE LAYING and LANDING Project Campaign	
CLIENT	BLUE PHOENIX MARINE LIMITED	
LOCATION	LAGOS	
REGION	WEST AFRICA, NIGERIA.	
TYPE OF WORKSCOPE	EQUIPMENT AND PERSONNEL FOR GOOGLE CABLE LINE LAYING and LANDING	
START DATE	APRIL 2022.	
END DATE	JUNE 2022.	PROJECT PICTURES
DETAIL		
RESPONSIBILITY	Responsible for the overall planning, scheduling, and execution of the Installation using diving Intervention. Developing project procedures, trackers, and control/monitoring of execution phase.	

**HISTORY OF PROJECT EXECUTED by SUBWEB Oil & Gas Services Limited**

PROJECT	AGBARA FACILITY INTEGRITY INSPECTION PROJECT (SUBSEA WORK)	 <p align="center"><b>Subsea Global Energy Service Limited</b></p>
CLIENT	NNPC-AENR/SUBSEA GLOBAL ENERGY NIGERIA LIMITED	
LOCATION	AGBARA FIELD OML 116	
REGION	WEST AFRICA, NIGERIA.	
TYPE OF WORKSCOPE	To performed (General Visual Inspections), CVIs (Close Visual Inspection), CP & UT measurement utilising Divers and ROV on the Drilling, Production Platform and the Floating Flare as required in order to identify deterioration, further failures or conditions that may lead to further failures (e.g. external corrosion).	
START DATE	MAY 2019.	<b>PROJECT PICTURES</b>
END DATE	JUNE 2019.	
DETAIL	<p>Task Objectives Underwater survey of Agbara twin platform jacket legs which is aimed at ascertaining their structural integrity and cathodic protection.</p> <p>External survey of the 12" crude oil transport line measuring 45km between Agbara platform and Brass Terminal. The purpose of the survey is to acquire the necessary pipeline and associated intervention data to enable a detailed engineering analysis. The engineering analysis will verify that the pipelines and the associated installation work meet the design requirements.</p> <p>Inspection of the buoy system, anode protection status, flexible and rigid support accessories of the floating flare ascertaining their structural integrity.</p>	 
RESPONSIBILITY	Responsible for the overall planning, scheduling and execution of the diving project. Developing project procedures, trackers and control/monitoring of execution phase. Supplied diving personnel and equipment to aid operations	

PROJECT	CHEVRON ALTERNATIVE TO METALIC FLEXIBLE PIPELINE PROJECT CAMPAIGN	  <b>NIGER DIVE LIMITED</b>
CLIENT	CHEVRON NIGERIA LIMITED-(CNL)/MARINE PLATFORM & NIGERDIVE Nigeria Limited	
LOCATION	ESCRAVOS FIELD	
REGION	WEST AFRICA, NIGERIA.	
TYPE OF WORKSCOPE	FLEXIBLE PIPE & SUBSEA CLAMP INSTALLATION	
START DATE	NOVEMBER 2018.	
END DATE	APRIL 2019.	PROJECT PICTURES
DETAIL	<p>AS FOUND SURVEY  INSTALLATION OF SUBSEA CLAMPS  INSTALLATION OF FLEXIBLE PIPE  INSTALLATION MATTRESSES  POST INSTALLATION SURVEY</p>	 
RESPONSIBILITY	Responsible for the overall planning, scheduling and execution of the diving project. As PM I liaise with the associated Departmental. Involved in the selection of key Company personnel who may be required to work on the project. Developing project procedures, trackers and control/monitoring of execution phase.
